

ROLLAFLAT SMOOTH PP 210MIC BLOCKOUT WB

Description:

Polypropylene banner applicable for indoor and outdoor with lamination. Also it's high opacity blockout pp that express brilliant color reproduction. It has application for promotional roll-up, posters, points of sales, trade show graphics. It has high image quality along with durability, tear-resistancy, and anti-curl properties.

Additionally, cost effectiveness will be great solution for you. This product requires three main things to be a professional banner: the great color representation, anti-curl and reducing light or reflections on the printed surface. These features with laminating make the media of choice for the most demanding of applications.

Applications:

High resolution graphics, banners, POP displays, roll-up, posters, exhibitions
