

## Roll Up Mercury 850 / 1000mm

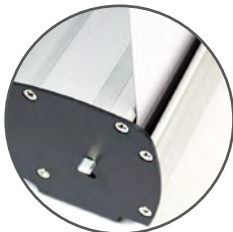

The most robust roll-up display of the whole Futura range, made of a thicker premium aluminum.

Roll Up Mercury has an additional metal base plate making it suitable for a constant and lasting use. Available in 2 different sizes: 850 and 1000mm.

It includes a double padded, reinforced nylon bag to carry and ship comfortably. On top of this the units are individually packed in boxes.

It is recommended to use media up till 300 mic maximum. A solid and representable display solution very easy to assemble, disassemble or re-use without great difficulty.

Suitable for exhibitions, fairs, reception areas, shopping malls, windows, promotion points and other sales or promo presentations.
