

STRATUS ALVEO PP 2000GR 9,5MM UV

Description:

Polypropylene for printing has a bubble structure core and a flat, smooth surface, excellent for high-quality printing on one or both sides. Our STRATUS Alveo sheets are resistant to inclement weather, chemicals, oil and scratches, allowing them to be used indoors and outdoors.

Advantages:

- Chemical resistant, rust-proof and rot-proof.
- Easy to convert (die-cutting, welding, riveting...).
- Customisable look and finish (colours, printing, lamination...).
- 100% Recyclable at the end of its useful life.
- Multidirectional rigidity.
- Optional treatments (anti-static, flame retardant, UV...).

FEATURES	
Thickness	9,5 mm
