

PUNTO VINYL WHITE MATT 100MIC

General information:

- One-sided selfadhesive, white, cadmiumfree 100 µm monomeric PVC- film
- Coated on one side with a solvent-free, age-resistant and permanently elastic acrylate adhesive
- The “dot-shaped” adhesive coat make the material easier to handle and to reposition
- New PE release liner providing excellent flatness
- Matt surface, printable with eco solvent-, solvent- and UV curable inks (low light colours recommended)
- No chemical reaction between solvent inks and acrylate adhesive
- A slight surface texture is due to the dot shaped adhesive

Application:

- Designed for short term indoor applications like Trade Shows, Seasonal Sales etc.
- Durability (unprinted) up to 2 years- depending on application area and purpose (1 year outside)
- Can be applied to a wide range of substrates, traditionally suitable for adhesion
- Car wrapping is not recommended

Processing & handling:

- Printing profiles with low amounts of light colours are recommended to reach the best printing performance
- As with all monomeric films a certain shrinkage can appear - depending on the application and inks used
- Easy to remove from nearly all substrates
- Removing from PVC substrates can be more difficult
- Dry gluing without laminating is recommended

Advantages / special features:

- Excellent colour reproduction and photorealistic print quality
- Very good flatness and printability
- Multi-purpose print media (wide printer- and ink spectrum)
- “Dot-shaped” adhesive coating allows easy and bubble free positioning
- High flexibility and distensibility

Warning:

In case of multi-layer printing, the PVC film would not withstand high UV radiation
