

# TEXTILE DISPLAY FRONTLIT 230GR

## Description:

Textile for frontlit printing in UV, latex and sublimation inks, direct printing or paper transfer. Very ductile and flexible, dense and very elegant. Ideal for fairs and exhibitions, applications in pop up displays and for its preparation with silicone or keder, very easy to sew and light weight despite its consistent grammage.

## Features:

Polyester textile 100% frontlit. Soft and Smooth.

Widths available: 2,50 and 3,20m.

Compatible with Sublimation.
