

ROLLAWHITE FILM PP 190MIC

Description:

White matt printable polypropylene film with high quality coating, white backing, provides high print opacity. Eco-friendly PVC-free product.

Available widths: 0.91m, 1.07m, 1.27m and 1.52m. Compatible with solvent, eco-solvent, UV and latex inks, with perfect colour reproduction. The product is mainly suitable for digital inkjet printing and other printing methods with eco ink, UV and latex. Pay attention to control the viscosity of the ink. It is necessary to test the ink before printing. Sticky ink should be avoided to prevent coating peeling. For the use of HP Latex, a drying temperature of 85 ~ 90°C is recommended.

Applications:

Ideal for roll up applications, displays, indoor and outdoor point of sale applications, stand decoration, signage, etc.

CHARACTERISTICS	MEASURES
Thickness PP	170 ± 5
Thickness of coating	18 ± 20
Thickness of finished product	≥95%
Weight of PP	127.5 ± 5
Weight - coating	18.5 ± 2
Weight - finished product	146 ± 10
Indoor temperature	23 ± 2°C
Relative humidity	50 ± 5%
Shelf life	1year: It should be stored in suitable conditions, preferably use within six months.
Applicable temperature	-20 ~ ± 70°C
Tensile strength MD	≥ 15
Tensile strength CD	≥ 10
