

VINILO PUNTO PP UV PRINT WHITE 100MIC

Description:

Polypropylene film (PP) one-sided self-adhesive, white, matt and PVC free. Coated with a solvent-free age-resistant and permanent elastic acrylate adhesive. The "dot-shaped" adhesive coat makes the material easier to handle and to reposition.

For application on a wide range of substrates (on most of the commercially available panels etc). Can be applied on smooth and slightly curved surfaces.

Compatible with UV curable inks.

Applications:

Designed for short term indoor applications like trade shows, seasonal sales etc.

Durability (unprinted) up to 2 years depending on application area and purpose.
