

STRATUS FOAM VISUAL 5/10MM

Descripción:

Stratus foam visual is a panel consisting of a polystyrene core laminated on both sides with a coated paper with a **high whiteness**, a luxurious smoothness and a very high regularity.

This panel also features a **high rigidity** and excellent dimensional stability.

Available in 5 and 10mm.

CARACTERÍSTICAS	MEDIA
Material	Core: Polystyrene-white
Peso	480g/m ² (for 10mm panels) 280g/m ² (for 5mm panels)
Grosor	5.0 +/- 0,5mm 10.0 +/- 0,5mm
PH	Neutro
Blancura CIE (ISO 11475)	122%
CIE (CIELAB SCAN-P 72)	L:94,2% - a: 1,6% -b: -8,0%
Gloss (T-840)	51
Reflectance GE	92
Aspereza (Parker Print ISO 8791)	1.0
Compressive strength	> 1 N/mm ² (paneles de grueso 5mm) / > 1.4 N/mm ² (paneles de grueso 10mm)
Tolerancia dimensional	-0 / +10mm
Esquina	Maximum 5mm/m
Bending	Maximum 5mm/M
Corte	Cut with a simple knife or digital cutting machine
Impresión	Can be printed on flat bed. Compatible with all current digital inks
Laminación	Manual or industrial lamination

Environmental aspect:

*Manufacturing site certified ISO 14001 (2004)

*Without CFC
