*AKI System: Automatic knife initialization

About Contour TKS3 and TK4S

Contour Pro is a big format cutting system provides best choice for multi-industries automatic processing. Its system can be precisely used for full cutting, haf cutting, engraving, creasing, grooving and marking. Meanwhile, precise cutting performance could meet your large format requirement, user friendly operating system will show you a perfect processing results.

What is the difference between them?

TK3S

- Control box under the machine
- Less space under the machine
- Same tools and engine as TK4S

TK4S

- Control box on the side of the machine to facilitate maintenance and verification
- Most tidy and clean wiring system
- More space under the machine to place the vacuum pump and save installation space
 - Silent milling chain
- Same tools and engine as TK3S

Available sizes

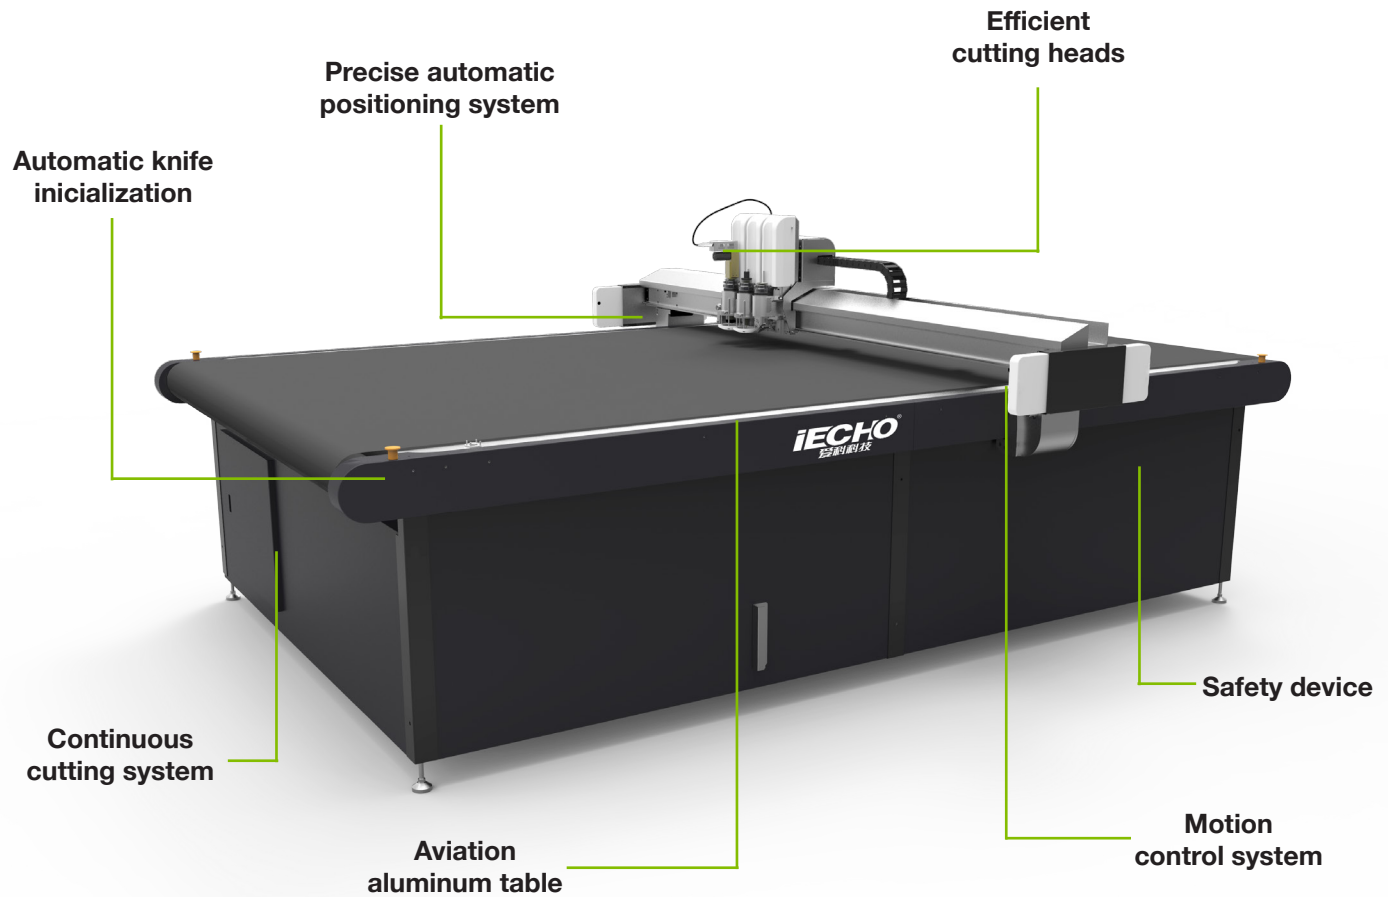

Dimensions: Width x Length

- PC 2516 - 1550 x 2500 mm
- PC 2532 - 3200 x 2500 mm
- PC 2527 - 2700 x 2500 mm
- PC 5532 - 3200 x 5500 mm

Technical information

- **Power:** 220V / 50 HZ 380V / 50 HZ
- **Speed:** 1500 mm / s
- **Cutting accuracy:** 0.1 mm
- **Cutting thickness:** 50 mm
- **Working temperature:** 0°C to 40°C HR 80%

BK3:

About Contour BK3

BK3 high precision digital cutting system can realize through cutting, kiss cutting, milling, punching, creasing and marking functions with high speed and high precision. With stacker and collecting system, it can complete the material feeding and collecting quickly. BK3 is quite suitable for sample making, short run and mass production in sign, advertising, printing and packaging industries.

Available sizes

Dimensions: Width x Length

- BK3 1713 - 1300 x 1700 mm
- BK3 2513 - 1300 x 2500 mm
- BK3 2517 - 1700 x 2500 mm
- BK3 3017 - 1700 x 3000 mm

Tools*

- **EOT:** Electronic oscillating knife
- **V-CUT:** For complex structural designs
 - **UCT:** Universal cutting tool
- **CTT:** For creasing corrugated materials
- **RZ:** To engraving and medium cut
 - **KCT:** Kiss cut tool
- **POT:** Pneumatic Oscillating Tool

* Machines TK3S, TK4S y BK3 have the same tools.

PK:

About Contour PK

PK automatic intelligent cutting system adopts fully automatic vacuum chuck and automatic lifting and feeding platform. Equipped with various of tools, it can quickly and precisely make through cutting, half cutting, creasing and marking. It is suitable for sample making and short-run customized production for Signs, Printing and Packaging industries.

Available sizes

- PK 0604 Plus 400 x 600 mm
- PK 0705 Plus 530 x 750 mm

Tools

- **UCT:** Universal cutting tool
- **CW:** Creasing wheel
- **KCT:** Tool for medium cut
- **OT:** Oscillating Tool
