

STRATUS

STRATUS PEGASUS FLEXUS

Description:

Sandwich panel with XPS extruded polystyrene foam core, covered with a 1mm "stadurlon" polypropylene sheet and protected by a protective film on both sides. It has channels on one side that allow the material to be curved and sent rolled up.

Available in 5mm and 10mm, in white and black.

Available in 153x305 or 203x305 sizes.

Advantages:

- High strength
- 100% PVC - free
- Antiscratch
- Easy to transport. Printed flat and transported rolled up.

Areas of application:

- Ideal for the production of curved applications; counters, column cladding, stools, totems, etc.

Now available in the Poster&Panel online shop:
