

Led Zeppelin

Instructions

-> Open the box and take out all parts, find the frame base and open the feet.

-> Assembly two "U" shape, please make sure the LED light parts with plastic should be UP on the "U" shape, and it is with the transformer base together. Then connected two "U" shape carefully.

-> Put the pole in the middle in order to connect the left frame and right frame stable. Then connected all LED light by DC connector, please don't forget connected the middle and bottom, total is 4 parts.

-> Put the graphics on the frame. Thanks to the silicone profile sewn into the graphic, installation is very easy.

-> Connect the transformer plug with 220V electric.
