# 15 YEARS YELLOTOOLS

## OMG – 15 YEARS YELLOTOOLS!

At this point we have often thanked you on one or another time. Each time it came straight from the heart but this time we want to thank you especially for 15 years of loyalty, constructive criticism, ingenious product ideas, praise and compliments!

It's so easy to write, you have the best customers in the world but in our case, this story is a unique one! From daddy's cellar to all over the world - from "one-man show" to a 33-members team on two continents. All this could only happen because there is YOU!

Thank you very much dear applicators, signmakers, wrappers, installers in the field and field service.

We promise you: our passion and dedication to you has and will never cease to make your job even more beautiful, relaxed and lucrative.

Convince yourself of our desire to rock for you and visit us in our fine tool factory in the beautiful "Windecker Ländchen" visit and experience the birthplace of our squeegees, knives and stencils.

We are here for you

Your yellos

## DBS-PRODUCTS

DBS means "Designed By Signmaker" and our DBS Products make up a large majority of the tools we offer. Did you browse through our tools and thought "I have a similar idea for a tool just like that"?

Signmakers are creative and imaginative thinkers so coming up with our DBS program was one of the best things we've ever thought of! Working together with signmakers all over the world, we have taken problem requests, concept ideas, proven install techniques and then merged them with our high quality manufacturing and innovation to produce tools with a "DBS" logo on them that are a collaborated essence of our industry.

Do you have something that annoys you or perhaps a new product idea? Email us or contact us or better yet, come and pay us a visit in beautiful Windeck, Germany and we'll be happy to work together with you!

## LEAN-STATEMENT

Our day to day focus and actions are based on the Japanese concept KAIZEN (also known as TPS - Toyota Production System). Our top commandments are:

*"Use your brain - not your wallet"*

*"There is NO end to improvement"*

*"Improve your life by at least 2 seconds every day"*

The "KAIZEN" philosophy is a central building block of our success. KAIZEN or "LEAN THINKING" is not a religion but rather a methodology for improving through the elimination of waste. With this way of thinking a person can attain significant quality in their professional and private life many times over. This type of thinking has been instilled into us for more than 7 years now in everything we do. KAIZEN or LEAN THINKING is really so much more than you might think. Just visit our production facility in Windeck, Germany and experience one of the most motivated, friendliest and most effective teams I have ever seen.

**NEW**

**Gecko clean**

Fast and easy cleaning from all Yellotools X-treme Mat products!

## Hole 'n' Cut XXL Eco

Super template with 2-in-1-function  
**NOW EVEN BIGGER!**

With the Hole 'n' Cut XXL Eco you are able to mark drilling holes in a blink of an eye. Either related to a corner or to the edge of your sign. You can also easily make cuts parallel to the edge of your sign. Just like it's "little sister", the XXL version is made of cast transparent acrylic glass, giving you a perfect view on your work piece.

Function 1: Simply place the drill template with the stop bracket on a sign corner and mark through the desired hole.

Function 2: Aligned with the stop bracket on a sign's edge, you can draw with a pen or cut with a knife in 16 different distances.

## Hole 'n' Cut XXL Set

Also available in inch

1 x Hole 'n' Cut  
XXL Eco

1 x EasyDot  
HD Ink

1x YelloCut  
HD PRO

# JoniMag Strip

Many of you ask for a flexible magnetic strip that can easily be "snapped" onto metallic surfaces. Inspired by our dear customer Zigfrid Tijunelis from Calgary we present the JoniMag with either 3, 4 or 6 strong rubberized magnets for vehicles or in combination with our **MagTape Ruler** also for windows and non-magnetic surfaces. Of course they are made of food safe plastics!

**NEW**

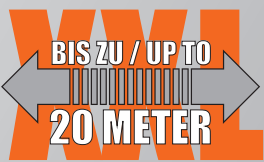

## CuttingMat XXL Frosted

You are looking for a Cutting Pad that does not reflect light? No problem!

The new Yellotools Cutting Mats Frosted offer you an anti-light reflex surface that "swallows" your hall lighting! No annoying blinding anymore. The mat offers you less surface adhesion, which makes it much easier to remove annoying adhesive residues.

**NEW**

## GloveMaxx ProWrap

Special glove for CarWrappers with "Wet-Feel"

These specially formulated gloves have a four times higher gliding performance compared to conventional CarWrapping gloves due to their "wet feel". In addition, they are four times more wear-resistant and cut-resistant.

The GloveMaxx ProWrap comes in three sizes: S / M / L

**NEW**

Also available with pink print!

## Yello V-Trim

Easy deburring of signs and other plate materials!

Thanks to its specially ground ceramic blade trimmed the V-shaped trimmer effortlessly steel, aluminum, aluminum composite, copper, brass u.v.m. up to a thickness of 8 mm on both sides in one operation. The durable blade is a matter of course interchangeable.

**NEW**

# YelloTwin

our innovative squeegee-system!

You can assemble YOUR individual squeegee yourself.  
Our dear customer **Hiroyuki Hattori from AMS Japan** has had the grandiose idea for it.  
The ergonomic handle consists of two bowls, in which you can insert a desired squeegee tip.

From very soft (35 ° Shore) to very hard (93 ° Shore) any combination is possible.  
The handle **YelloTwin Base** is equipped with two magnets to „park“ the squeegee.  
Our beta testers love the YelloTwin i.a. also for filming with PPF films, e.g. on vehicle roofs, large areas and incorporation of foils in beads with only one tool.

**YelloTwin Base**

**NEW**

+

**YelloTwin Lip**

**DBS - PRODUCT**  
Designed by a signmaker!

Made in Germany  
**ORIGINAL**  
by Yellotools

Soft 35° Shore

Green 40° Shore

Blue 62° Shore

Gold 72° Shore

Orange 82° Shore

Peekaboo 89° Shore

Teflon 93° Shore

## YelloTwin SampleBox

Test our YelloTwin SampleBox with a sensationell price advantage!

## WrapStick Beavertail

Nobody less than „Doc Stickers“ aka. Robin Bös inspired us to create this precision WrapStick.

Wherever squeegees and fingers do not exert sufficient contact pressure, our WrapStick family helps. The youngest member is the "Beavertail". Its two slender ends reach even the most hidden corners and help to achieve a foiling free of complaints.

Available in three different degrees of hardness. Individually or in packs of 10..

Also available in a pack of 10

## WrapStep

Unfortunately, conventional ladders are only partially suitable for vehicles. **Due to the special skid design, the new WrapStep can even be pushed into the vehicle with the door open.** Rubberized edges prevent damage to the body and vehicle parts.

The extremely stable design allows loads of up to 330 lbs! The WrapStep reaches a height of 60 cm and the smaller brother still a height of 40 cm and a width of 50 cm.

60 cm

40 cm

## CableFlyer

Some things are awesome simply or simply awesome :) **Matt Marsh from the US is annoyed by pinched power cables on the wheels so much that he asked us for help!** The result: „Why did nobody think of the idea earlier?“. Also works with air pressure cables and vacuum cleaner pipes!

## SafetyRuler Platin

No. 1 Tool in every signshop: The Safety-Cutting-Ruler!

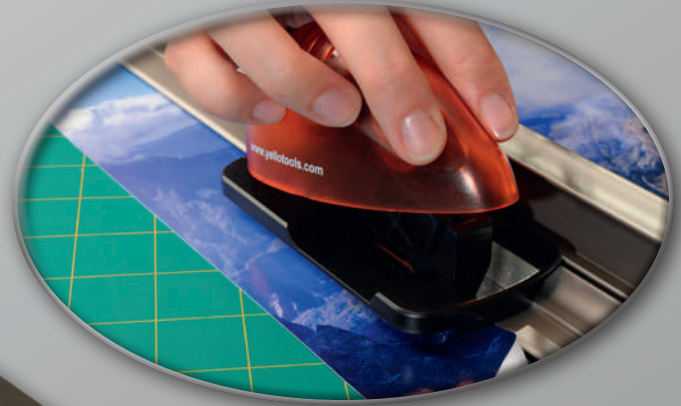

2-in-1 – it's a safety ruler and linear cutter in one!

Side one offers our "classic" cutting protection; side two features a built-in CutCoaster track. Truly two tools in one!

- anodized aluminium
- 2-in-1 SafetyRuler & Cutter Mouse
- protection flange
- non-slip rubber-coated base

Ruler and coaster also available as a set.  
(SafetyRuler Platin Combo)

**Save some money!**

### CutCoaster

- maximum cutting comfort
- minimal effort
- exact straight cut
- individually applicable
- high security
- effortless cutting (even thicker material such as integral foam panels, etc.)
- Only in combination with the SafetyRuler Platinum Edition usable!

### CutCoaster Wheel

- maximum cutting comfort
- minimal effort
- cuts textiles and fabrics clean and easy
- high security
- Only in conjunction with the SafetyRuler Platinum Edition usable!

Also as  
**SafetyRuler Platin Combo**  
available!

## SafetyRuler Classic

## SafetyRuler X-Black

The top choice of signmakers – with ultimate protection!  
Our SafetyRulers are occupationally safe and purely ergonomic, allowing a simple, safe job. Available up to 5m.

The SafetyRuler with an extreme hard surface.  
Also available up to 5m.
