

EasyApply Fluid

Different open times and flavors.

HeavyHolder

Instead of using masking tape you should try this to hold your prints in place!

EasyWeed Powder

The all-organic powder makes the cut contours perfectly visible.

TimberMaxx Floor

Easy floor applying without hurting your knees, back, etc. Which size do you need?

YelloHook

A thin but solid barbed hook mounted on a rigid arm. With safety cap.

PlottJoggle

The perfect alignment guide for plotted vinyl and cutted graphics. Once adjusted - zero mistakes :)

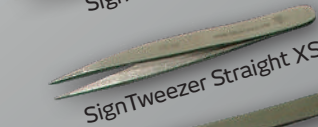

SignTweezer

A high quality "graphic arts" tweezers that provides a fast "dip" into the vinyl for quicker, easier and more accurate weeding than other tweezers - super sharp tip!

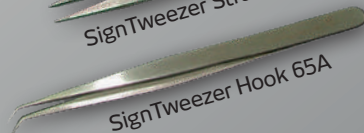

Also available as set.

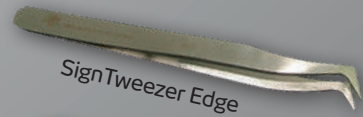

SignTweezer Straight L

SignTweezer Straight XS

SignTweezer Hook 65A

SignTweezer Edge

SignTweezer Hook 7

YelloPen

Get rid of bubbles underneath the vinyl in seconds.

FlipperPen

Puncturing of air bubbles also from thicker films. Perfect also for weeding.

YelloPen EasyFlip

The needle can optionally be extended very long.

YelloPen Mini

The little brother of our YelloPen. Total length: 11 cm

YelloDouble Pen

Pretty useful at bigger rivets or objects underneath the vinyl.

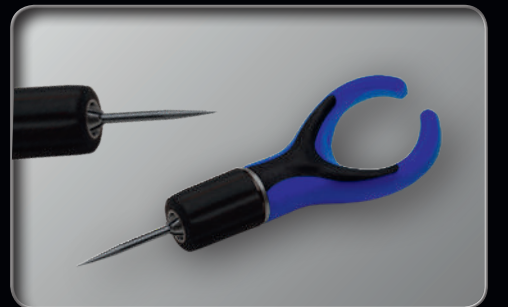

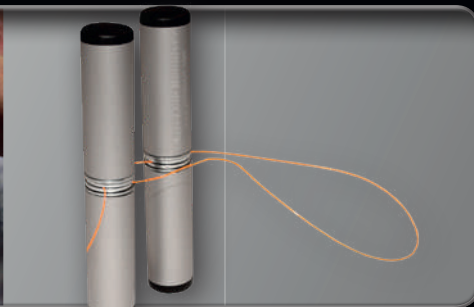

YelloBrush

Rivet brush and air release tool in one unit. Also available without the bubble popper.

PlateLine Remover

The extreme-tearproof cord is perfect for non-residue removing without hurting the paint. With the quick-release grip you can adjust the „Saw-Cord“ in seconds.

FingerTip KnifePen

It may look a bit odd but it fits in your fingertip perfectly.

RapidRemover

THE revolution for removing vinyls

Unfortunately not available in the USA. Give us a call!

The most annoying and timeconsuming work of our industry can be done with fun in just minutes now. Honestly - even older digital prints from over 20ft length can be removed with ease in just minutes

Available in 60cm and 100cm. Extendable with 40cm extensions!

YelloBlade & YelloBlade Grip

Our super popular vinyl removing tool is a must-have. Try also our YelloBlade-grip!

YelloBlade Handle

For even more ergonomic working with the YelloBlade. With magnet for "parking".

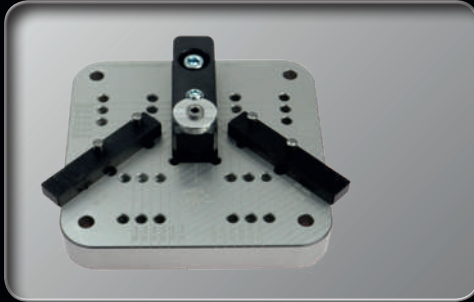

YelloBlade Handle Mini

The handle for more detailed work with perfect ergonomics.

YelloBlade Egg

The "palm-of-the-hand-" version from the YelloBlade Handle.

EasyDrill Mini

Fix your drill right where it supposed to be. Heavy duty or portable.

P-Glas Drill

Special acrylic or plexiglass drillbits are treated with a special polish.

P-Glas Twin

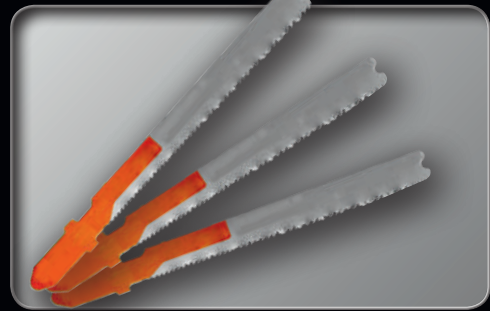

2-in-1: cutting and deburring with one tool

Function 1: Clean scoring to break the edge

Function 2: Easy deburring of the edge

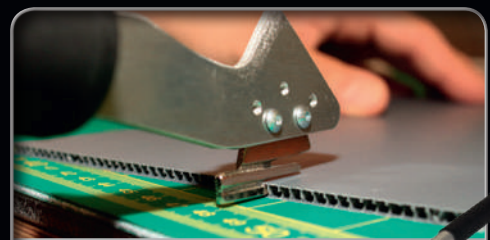

When cutting acrylic or Plexiglas (or rather when scoring and then breaking off) often you will get a small ridge that needs to be removed.

That's easy too. Turn the P-Glas Twin and use the V-shaped ceramic blade to deburr both sides of the Plates. For 1-10mm plates.

P-Glas Jig

The gearing of the jigs was designed to cut all kinds of acrylic or plexiglass.

ONLY WHILE STOCKS LAST!

EasyCoro Cut LongReach

You can cut or score even larger Coroplast sheets without "work-out acrobatics".

PowerPunch System

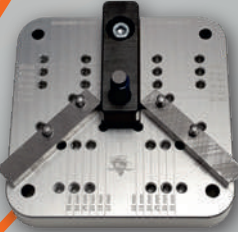

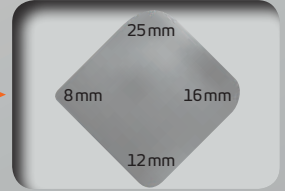

- More than four tons of pressure
- Cuts aluminum, brass, copper and even STEEL
- Individual modules possible

Corner R30/35

Grommet press

Do you miss a special module that fits your needs?
Don't hesitate and give us a call or mail us at any time!

Yep, we are really proud of this "baby". Our robust corner punch for solid materials gets already its third expansion: PowerPunch Corner R30 / 35.

The change of the inserts takes place in a few seconds WITHOUT the use of any tools.

And again without brutal effort, without electricity, hydraulics or pneumatics - just punch clever!

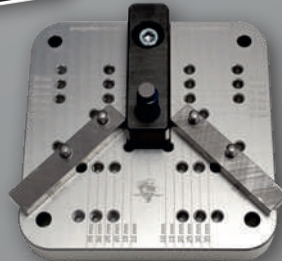

The best: This tool is an in-house development and is completely manufactured at the Windeck site! Not available in the U.S.!

PowerPunch Corner4

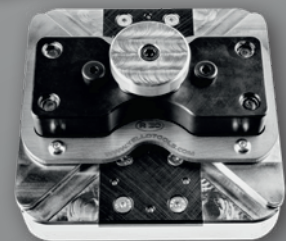

The PowerPunch Corner cuts 4 different radiuses. The heavy-duty CornerRounder cuts raduses of 8mm, 12mm, 16mm and 25mm. Simply turn the insert plate and you are ready to use your amazing "4-in-1" system for various materials like aluminum, brass, copper, plastics and way much more!

PowerPunch Hole

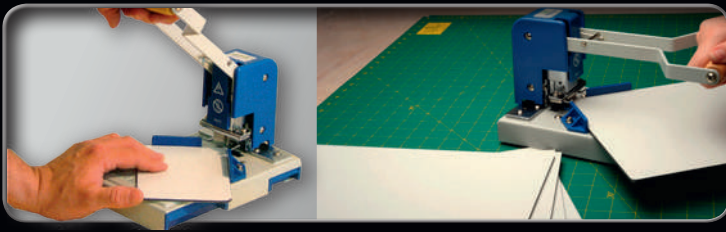

The PowerPunch Hole Modul punches 4, 6 or 8mm holes into various materials such as 2mm aluminum, copper alu checker plate, up to 4mm Dibond, 1,5mm Brass and many more. The left-over can't choke the tool and so it's pretty rigid and long-lasting. Again: To change this tool, it just takes seconds without the need of any other tool or key!

PowerPunch Corner R30/35

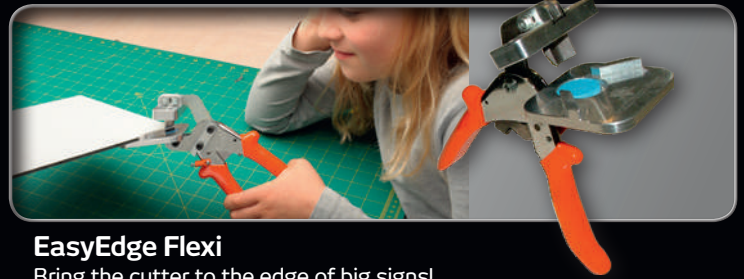

The ideal tool for large advertising and traffic signs. The PowerPunch Corner can round two different radiuses! The extremely stable corner rounding punches two different radiuses with only one insert plate: 30mm and 35mm. Simply turn the plate

Do you miss a special module that fits your needs? Don't hesitate and give us a call or mail us at any time!

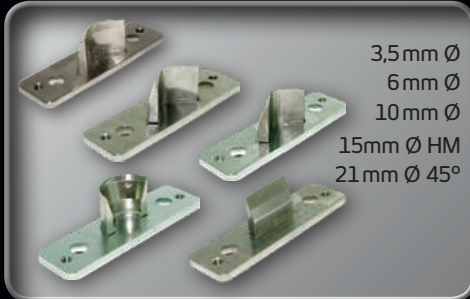

EasyEdge

Cuts corners up to three dibonds in one step! Also for cards, magnetic signs etc.

EasyEdge Flexi

Bring the cutter to the edge of big signs! Cuts up to two dibonds in one step.

3,5 mm Ø
6 mm Ø
10 mm Ø
15 mm Ø HM
21 mm Ø 45°

EasyEdge Corner

Specially hardened punching knives for our EasyEdge and Flexi

SignTrim Mini

The best deburring tool to deburr dibond, forex and many other materials.

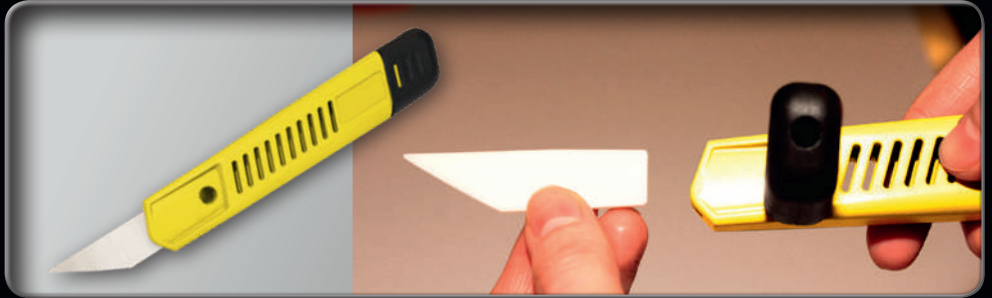

SignTrim Big

The same like the "Mini" only with a thicker handle. As you like it :)

SignTrim CeraFlex

Perfect deburring with the swivel ceramic blade

SignTrim CeraSwitch

Works great for inlaid work, small corners, inside gaps of letters, ornaments and much more. The deburred result is perfect and the interchangeable blade lasts for years.

SignTrim Set

The perfect deburring solution for our SignTrim tools plus spare blades. For dibond, forex, acrylic and many other materials.

Yello V-Trim

Simple deburring from signs and sheet material with a v-shaped ceramic blade.

P-Glass Refiner

Due to the high demand for our acrylic glass tools, we now round off the series with another edge modifier.

The P-Glass Refiner is a small hand-held gas torch with a variable spacer, which can be adapted individually to the respective acrylic glass thickness.

The degree of fusion/polish can be regulated via the speed. The ideal processing of individual signs and "when it's time to go" - or of course, as a "first aid" in the repair case.

AngelRacer

Trimming overlapping vinyls and deburring signs in one go?

No problem with our AngelRacer. Depending on the angle of incidence of the cutting surface, the edge width can be regulated. The blade is adjustable and interchangeable.

You will love it!

YelloFleece Pro

The optimal cleaning cloth for car wraps and partial wraps. 100% viscose!

ONLY WHILE STOCKS LAST!

Price without wipes

WipeBox Mag

Park your cloth right where you need them. Simply remove wipe for wipe.

The new pressure-spraybottle - Made in Germany. With 1.0 liter.

38 dyn

YelloQuickstick

You get a perfect idea of the tension of your surface with this tension-pen.

PrintEx Pen

Little ink dots and splashes on prints erasing with ease.

PadHolder

Store your PowerCleaner efficient and professional with this parking bracket.

YelloFrog

Our „1000 uses!“ cleaner. It's the perfect all-around cleaner. Effective and environmentally-friendly. PH-neutral and 100% biodegradable.

YelloFuid - SurfaceCleaner

Perfect for pre-treating vehicles before applying vinyl graphics. Unsurpassed in removing particles and invisible streaks, for a longer graphic life.

YelloOrange

Removes all glue residues after a short waiting time.

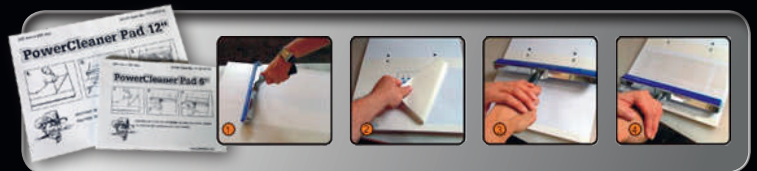

YelloTarex

Our Power-Mate for removing stubborn Tarspots.

YelloJack

Isopropyl Alcohol (IPA) in a 100% concentration. It is not stretched or denatured with additives. So you get optimal cleaning in record time, with vehicles and more.

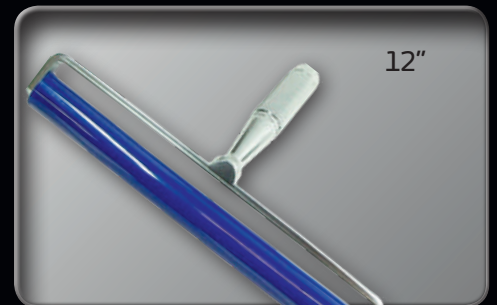

PowerCleaner Pad

These are the matching pads for our Power Cleaner 6" and 12". The dirt particles are taken up by the CleaningPad and thereby the power cleaner is again ready for work.

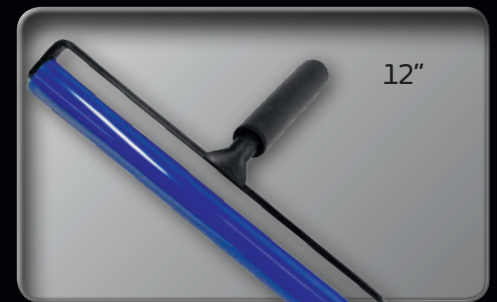

PowerCleaner 6" mit aluminum handle

PowerCleaner 12" mit aluminum handle

PowerCleaner 6" with plastic handle

PowerCleaner 12" with plastic handle

PowerCleaner Plastic + Aluminum

This innovative antistatic cleaning system captures dust and particles directly from your sign substrate without scratching or leaving static behind. Available in aluminum or plastic version. Width: (15 cm or 30 cm)

WrapSticks

15 WrapSticks (so far!) will help you make your applications safer and easier and complete your job faster. Of course, you can get them either in the full set or also as an individual item. Just pick your favourites. The Set was put together by professional wrap trainers all around the globe. More information on page 15 or in our onlineshop.

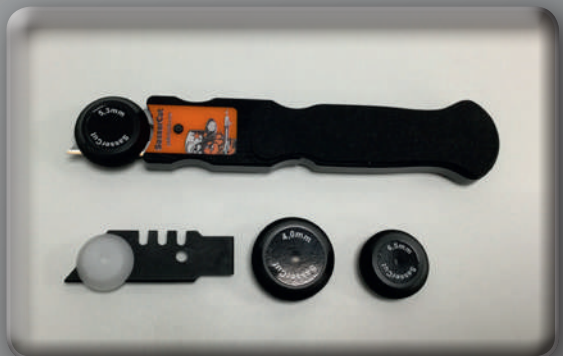

SasserCut Pro

Roland Sasser, Georgia USA sent us an S.O.S. He was looking for a professional gap-knife that would help him preventugly zig-zag cuts on things like car doors and fuel-filler doors. So we invented the SasserCut series for him.

The SasserCut is only available as a pro version with a depth of 5,3mm. Of course, you can still order the immersion depths of 6.5mm and 4.0mm as well as the plastic version. For this, you only have to replace the appropriate rolling elements and not the whole knife.

SasserCut Pro Set

SasserCut Pro + SasserCut Pro Set

A professional gap-knife that provides ugly zig-zag cuts in door gaps e.g. The roller-guided knife centers itself automatically in gaps.
