VertigoRack System - The modular concept for roll-media storage.

Probably the largest, most innovative and flexible rollmedia storage-system for signmakers. Whatever you want to store - how heavy, how long, how thick, how distanced from each other: The Vertigo is ready for all tasks! The system simply contains the system-bars and adjustable brackets.

V-Bracket "Tube"

Dead-easy hook and unhook with our "Standard-Bracket" and A-Tubes.

V-Bracket "Roll N'Cut"

You can park the roll-and cut device at any desired position on the rack.

V-Bracket "Easy Reach"

Our EasyReach-technology for the Vertigo-System. Just places the core on the left-hand wood pin and easy slip it on the right hand flip bracket.

V-Bracket "WaveHolder"

Perfect storage for big media as because of the integral-foamed inlets.

Do they really produce those tools themselves?

OH YES, WE DO :) About 75% of all our products are made in our shop, in Windeck, Germany, or in the greater area. After years and years of making signs, we've started improving our industry with smart and innovative tool solutions for signmakers. As you can see in the pictures below, we don't just design, engineer and sell our products, we also produce most of them with our own machines and technologies: injection-molding machines, CNC-routers, pad-printers, UV-printers, water-jet cutters, a full woodshop and a perfect team come together to realize "Signmaker-Dreams" for you.

Check out our new T-Shirt collection

OF COURSE WE ALSO HAVE OUR "OLD" DESIGNS IN OUR SHOP

We would like to welcome you to the Yellotools family in Windeck. If you are in the Cologne / Bonn area, just ask swing by :)

Have you become curious, you want to get to know more great Tools?

Tools that make working more fun and is even more efficient?

Then just have a look here:

www.yellotools.com

We don't want just shiny and fancy-looking items which are nice to look at but with no real "right to exist" – Our tools are coming right out of the problem – or more right out the signmakers-need. Whatever you hate about the best job in the world – we do have a solution for it and if not, we realize it together with you. **We love what you hate** :) hits the nail perfect. A lot of our tools are born out of this motivation and they already improve the daily life of thousands of signmakers all over the world. So, what is it, that YOU hate the most? Use our motivation and share your pain with us.

We will help you to improve signmaking to the "best job in the world"!

THAT WAS 2018 - Thank you dear customers for a fantastic year
